Elements of a Good Speech

- **Organize your speech** in a logical sequence: opening, main points, summary.
- **Practice and rehearse** a speech frequently prior to delivering it. Ask friends to be your audience, or practice in front of a mirror. Be sure to use a timer to help you pace your speech.
- **Become familiar with the stage** or the setting where the speech will take place. Get a sense of the size of the stage, where any steps or obstacles might be, and where to enter and exit.
- **Choose comfortable clothes to wear**, but always maintain a professional appearance.
- **Visual aids** should fit a speech, whether they are funny, serious or technical. The main goal of visual aids is to help the audience understand what is being said, and reinforce the points of a speech in unique and interesting ways.

Successful Speeches

Whether you're talking to a **small group of people** or speaking to a **large audience**, you want to be sure your speech is memorable and enjoyable. Follow these five (5) easy tips to help ensure your speech delivers:

1. **Be prepared.** Your audience is giving you their time and consideration, so rehearse enough to be confident you'll leave a good impression.
2. **Start strong.** Begin your speech with a powerful opening that will grab your audience's attention, such as a startling fact or statistic, an interesting story or a funny joke.

Successful Speeches

3. **Be conversational.** Avoid reading your speech word for word. Instead, refer to notes or points from an outline to help your speech have a more free-flowing, conversational tone.
4. **Speak with passion.** If you're truly invested in what you're saying, you'll be better able to keep your audience's attention.
5. **Be patient.** It's easy to get frustrated if you make a mistake. But remember that public speaking is not easy and it takes time to hone your skills. Keep practicing and you will reach your goals.
